Testing Scenarios.

Ayman Bouybri

INFODAT.

Overview

In the testing phase, we are about to provide testing scenarios to start the real testing on the ground, and this time we will create some scenarios from the reality where we can see what we can do.

Members involved : Ayman bouybri, zahra oufir, hazim bouybri, abdelhaq tzougart, hanane.

Scenarios :

- **Case 01** : make 5 instant delivery orders in different radius without authentication. (0- 10 km).

- **Case 02** : make 5 standard delivery orders in different radius without authentication. (10-15 km).

- **Case 03** : make 5 deliveries orders in different radius with authentication. (10-15 km).

- **Case 04 :** create 1 company, 1courier, 1 agency, 1depot.

- **Case 05 :** MGMT - verify company, courier, agency, depot.

- **Case 06 :** MGMT - Complete the process of instant deliveries.

- **Case 07 :** MGMT - Complete the process of company deliveries.

- **Case 08 :** MGMT - Complete the process of standard deliveries to the depot.

- **Case 09 :** MGMT - Start the process of next day delivery for standard orders.

INFODAT.
